Crystal Maxwell

The COVID-19 pandemic has hit Southern California hard; ensuring the safety of our youth and staff here demands that our programs must operate with nothing less than full commitment to both. Compliance Manager Crystal Maxwell has been instrumental in ensuring our sites maintain increasingly stringent health standards established by local health departments and agency partners. Compliance Manager Maxwell has maintained and promoted constant diligence, proactive communication, and critical coordination between direct care staff, program managers, and directors to establish and uphold vital best practices, thereby safeguarding and supporting our front line staff. We are thankful for Maxwell's heroic compassion, professionalism, and dedication.
