## Justin Gaddy

During the peak of COVID-19, with teachers and principals unable to be physically present on-site, Justin Gaddy undertook the Herculean feat of managing school duties on top of his own job. He designed and implemented class schedules that ensured all staff were able to maintain remote learning via Zoom, sanitized classrooms on a daily basis to ensure the health of students, and logistically minimized student rotations. Needless to say, long hours were the least of it. We are honored to recognize Mr. Gaddy as one of Sierra Ridge Treatment Center's biggest heroes.
