## Marta "Gladys" Herrera

For the past 18 years as a Cook at Ridge View, Gladys Herrera effortlessly maintains a positive attitude and at the start of each shift will greet employees and students with a friendly good morning and a smile. Her ebullient, ever-positive attitude has been especially impactful during the pandemic, as the preparation of thousands of to-go trays for quarantine units has challenged all of our kitchen staff. She also cheerfully and faithfully took on the additional responsibility of tracking increased COVID-based sanitation and safety standards. Cook Herrera has made the health and safety of our youth and staff her priority; we are proud to make honoring her service ours.
