## Aarika Dorsey

Aarika Dorsey usually works part-time as a member of Hillcrest Academy kitchen staff. However, once the pandemic began to affect overnight Direct Care staff availability, she graciously volunteered to come out of the kitchen and work overnights. Staffmember Dorsey went from working part time, to full time, to more than 5 nights per week. And even though she enjoys the kitchen, she understood the needs of the site and the students, as working in a COVID-positive unit prevented her from returning to the kitchen for a few weeks. Nevertheless, this sacrifice did not inhibit her heroism. Aarika: thank you for understanding our mission and demonstrating what it takes to improve lives.
