ORR Medical Team

As COVID swept through some of our programs in 2020, our talented Canyon State Academy ORR Medical Team managed and contained outbreaks in both ORR programs. This talented group of medical assistants tended to every student, ensuring full compliance with staff PPE use. Luisa Casillas, Karla Valdez, and Yolanda Solorzano each implemented multiple systems to comply with ROP, state, and Federal reporting guidelines while still juggling routine medical care. Despite challenges, they have pressed forward with admirable endurance to bring the best services to the student-athletes in our care, stepping up to the challenge and successfully carrying the workload with passion and enthusiasm. Their selfless efforts do not go unnoticed: all three members of this relentless, mighty trio are our everyday heroes; we are grateful for and proud of their continued efforts during this pandemic.
