Robert Wood

Shift Supervisor Robert Wood joined the Morrison Home in April of 2018. From the start, Robert was not shy about voicing useful new ideas that enhanced both our safety and the compliance standards of our home and school. Robert has always been a powerful and charismatic role model: Robert's tactful leadership and accountability practices have inspired our staff to respect, understand, and adhere to vital COVID protocols. Although Shift Supervisor Wood himself is in a high risk group for COVID-19, this has not stopped him from doing his job: he consistently goes above and beyond to ensure that the Morrison Home is safe for all youth, staff, and agency partners.
