Salena Wilson

Meet Salena Wilson: our hard-working, dedicated janitorial services superhero. After dealing personally with COVID-19, Wilson stepped up in a big way to protect J. Walter Wood, Jr. Residential Treatment Center from the virus, ensuring we maintain our supply of PPE and rigorously uphold all sanitation protocols. She also has a great rapport with the students, always providing them with positive words of encouragement to bolster their desire to do better. Wilson always has a smile on her face; she is a Team Player that never complains. She loves her job and it shows in the work she does each and every day. We are so thankful to have our own personal COVID-fighter here on the JWWJ Team.
