Keri Loo

You can't spell 'superhero' without an HR! No one demonstrates that more than Keri Loo, one of our guiding lights at Residential Options for Adolescents in Recovery (R.O.A.R.). Since we opened a few months back, HR Specialist Loo has made major contributions as our go-to superhero, providing for all staff employee services needs while also serving as a supportive adult peer role model to our students. Many a lunch break has found her playing cards or dominoes in the cottage with our Student Athletes, who thoroughly enjoy her company, and request her time often. Lately, she has been serving up creative ideas for enjoyable teambuilding activities for both staff and students: even creating and spearheading the Goal Diggers, our diverse campus Moral Committee (in addition to our Safety Squad). She also recently planned and executed our first Spring Fling, in which residents and staff members played a variety of games together. Overall, HR Specialist Loo is a consummate Human Resources professional; despite her considerable skill and expertise, she is humble, funny, and always manages to devote time and attention to each member of our small, diverse (and growing!) team. We are very proud to have her on board at R.O.A.R., and we know she is a great asset to the whole ROP family!
